

If you're interested in becoming a Solar Installer, this training could be a good option.

1. Organization providing the training:

Civic Works

2. Physical location where training occurs:

3501 Brehms Lane, Suite B Baltimore, Maryland 21213

3. Description of the training offered:

Trainees learn all of the skills necessary to obtain employment as a solar installer. Trainees will receive 46 hours of formal job readiness instruction under Civic Works' career services, as well as ongoing individualized case management and wrap-around supportive services. Module 1 Entry-Level Solar Installer Training participants then complete two 40-hour weeks of classroom training, 88 hours of hands-on training, and up to 320 hours of on-the-job training. From start to finish, the training takes place over three months of calendar time.

4. Trainees have the opportunity to earn the following industry-recognized certifications:

- OSHA 30-hour Construction Safety certification
- OSHA Fall Protection certification

5. Am I eligible?

Civic Works has no literacy, numeracy, or educational attainment requirements.

Enrollment requirements are limited to the following:

- Must be 18 years of age or older
- Must have physical fitness sufficient to continuously perform strenuous activities (climb ladders, carry a minimum of 50 lbs, etc.)
- Must be comfortable working at heights and
- Must be able to pass a drug test
- Must demonstrate a commitment to pursuing a career in solar installation

6. What is the application process?

All applicants attend an in-depth information session, submit a written application with a personal statement, and meet one-on-one with program staff. Only applicants who demonstrate full awareness of the time commitment and are genuinely dedicated to pursuing a career in solar are considered for acceptance.

Interested applicants should reach out to Chanae Boice at csc@civicworks.com or 410-929-6120.

7. How much can I expect to earn if I complete this program and obtain employment as a solar installer?

Trainees who complete this program and obtain employment as a solar installer can expect to earn an average wage of \$15 - \$19 per hour.

8: How much do I have to pay for this program?

There is no cost to trainees.
